MUGASOL MIX L

Mugasol Mix L is a blend of microelements indicated to prevent and treat physiopathies due to nutritional deficiencies.

The microelements within Mugasol Mix L are complexed with citric acid, which rapidly conveys their absorption within the plant.

The organic complexation makes the product particularly effective even at low doses and in different climatic conditions.

Mugasol Mix L rapidly improves, even a few hours after application, the vegetative state of the plant and increases its resistance to adverse biotic conditions.

IN THE PLANT

- It prevents and treats deficiency physiopathies microelements
- Promotes photosynthesis chlorophyll
- Increase natural defenses
- Ready assimilation

IN FRUIT

- Enhance the features organoleptic

Mugasol Mix L, in addition to fertigation with macroelements, improves its effectiveness and completes the nutritional supply.

The use of Mugasol Mix L is authorized in organic farming.
